

FORM FOR QUALIFICATION INFORMATION

1 specimen to send to the Classe Mini, 1 to give to your contact.

The Classe Mini association draws the attention of the skippers of the difficulty of the 1000 NM single handed qualification and on the rigor which must govern its preparation. Contrary to the races that offer the luxury part of a course in fleet followed by sport and marine authorities in addition, this course exposes you to an authentic single handed sailing without framing organization and without close assistance.

For as much, the safety device that any sailor deserves is permanently ready to act. The decision of launching researches, organizing help implicates a correct analysis of the situation. This analysis is subordinated to a perfect knowledge of the equipment you have on board (EPIRB, lifesuit, safety hatch, handheld VHF...). If we know you have an EPIRB on board and you did not start yet, we can legitimately hesitate before starting the research. In the same way, if you have a lifesuit and that you have fallen off board, the stop of the researches can be obviously delayed.

As a conclusion, prepare yourself very well, do not leave before you are in perfect conformity with the Classe Mini rules and fill scrupulously the below inquiry. We tolerate that the rules are not respected for sails numbers.

Skipper's name :

Boat's name :

Boat's number :
